PROFESSIONAL SUMMARY

Final-year AI Engineering student seeking an entry-level role with hands-on experience in Python, SQL, and machine learning for data analysis, fraud detection use cases, and building end-to-end AI applications. Skilled in developing data pipelines, integrating deep learning models using TensorFlow / Keras, and troubleshooting software systems.

EDUCATION

G. H. Rasoni college of Engineering & Management Nagpur **Nov 2022 - Present**

Bachelor of technology in Artificial intelligence | 7th semester (CGPA – 8.99)

Sunny's Spring Dale School Bhandara

Jun 2020 - Mar 2022

HSC | Percentage – 71.6%

Sunflag School Bhandara Road, Bhandara

Feb 2020

SSC | Percentage - 88.4%

Work Experience

Dataventics Software Solutions Pvt. Ltd UI/UX Intern

Jun 2025 – Nov 2025

Collaborated with senior designers and developers to create intuitive and visually appealing user interfaces for web and mobile applications.

Codsoft Python Programmer Intern

Dec 2024 - Jan 2025

Developed Python applications with structured logic and modular design, strengthened debugging, logical problem solving, and performance focused coding skills

SKILLS

Programming: C, C++, Python

Databases & Querying: MySQL, PostgreSQL, RDBMS, SQL (Joins, Subqueries, Indexing, Normalization)

Computer Science Fundamentals: DBMS, Data Structures & Algorithms, OOPS, Operating Systems

Tools & Libraries: Git, Streamlit, Pandas, NumPy, Tkinter, TensorFlow, MS Excel

Core Strengths: Logical reasoning, analytical thinking, performance optimization, clean coding

PROJECTS

LaptopGuard – Smart Real-Time Device Tracking System

Dec 2025

Application for real-time laptop tracking with live map visualization, WebSocket updates, secure login, device management, and automated screen and webcam capture for anti-theft monitoring.

Multimodal Mental Health Detection System

Nov 2025

Multimodal TensorFlow-based system for real-time emotion recognition from face, voice, and text to enable automated mental health risk assessment..

Investment & Loan Calculator & Planner

Oct 2025

A streamlit web app to calculate returns on investments and EMIs for loans, supporting tax impact analysis and portfolio comparison, with interactive charts and goal-based planning.

CERTIFICATIONS

Oracle Certified Foundations Associate

Sept 2025

Introduction to Cybersecurity course offered by Cisco

Jun 2025

Accenture North America Data Analytics & Visualization Virtual Experience

May 2025

AWS Solutions Architecture Job Simulation

Apr 2025

Extra Curricular Activities

Participating in Hackathons and coding competitions, showcasing problem - solving abilities

Anchored college and national-level programs

Organized a national-level student competition
